

The coolest eyes! Now with a silver top

OSRAM's new COOL BLUE® lamp family

SEE THE WORLD IN A NEW LIGHT

OSRAM

You now can recognise OSRAM's COOL BLUE® lamp family by its silver top.

Clear-glass headlamps are increasingly popular. The result: you see everything inside the reflector. And what you see does not always look attractive.

Luckily, OSRAM views the world with innovative eyes. For their life behind clear glass, the most important members of our COOL BLUE® lamp family are equipped with silver tops. The lamps now optically merge with the reflector to a homogeneous composition. Supported by its upgrade to up to 4000K colour temperature, the COOL BLUE® lamp family now shines as the bluest among the blue.

The result is worth seeing. The bluish light of the COOL BLUE® lamp family ensures not only optimum sight and visibility but also optimum design.

Who says seeing well and looking good don't go together?
