

## OPTOTRONIC Power supplier 24 V

### A termék jellemzői

- Wide operating temperature range: -20...+50 °C

### A termék előnyei

- Installation in cold and hot environments

### Alkalmazási területek

- Suitable for indoor and outdoor installations

# Termékcsalád adatlap

---

## Használati tanácsok

További részletes alkalmazási információkat és grafikákat a termék adatlapján talál.

---

## Adatlap szöveg

- EMI pass verified with wire length of 2 m, from the ECG to the LED module at full load.
- Wiring longer than 2 m from ECG to LED module is possible, but site installation conditions may interfere with EMI with these longer cables. EMI is therefore not verified in this condition.
- For wires longer than 2 m, the appropriate cable cross section must be carefully selected to reduce voltage drop.

## Ecodesign regulation information:

Intended for use with LED modules.

The forward voltage of the LED light source shall be within the defined operating window of the control gear in all operating conditions including dimming if applicable.

Separate control gear and light sources must be disposed of at certified disposal companies in accordance with Directive 2012/19/EU (WEEE) in the EU and with Waste Electrical and Electronic Equipment (WEEE) Regulations 2013 in the UK. For this purpose, collection points for recycling centres and take-back systems (CRSO) are available from retailers or private disposal companies, which accept separate control gear and light sources free of charge. In this way, raw materials are conserved and materials are recycled.
