# Lightbar VX180-SP SR

Robust and vibration resistant
Ensuring long life

Up to 320 m long beam
Improved far and near field
illumination

Spot Beam
For particularly focused high
beam distribution

IP & IK protection classes

Tested and validated in a DINcertified environmental
simulation laboratory
regarding extreme external
influences such as water, dust.

regarding extreme external influences such as water, dust, shocks, impacts, heat, cold, permanent vibrations and many more

#### Powerful LED driving lights for off-road and on-road use

Considerable foresight on dark country roads, forest paths, off the beaten tracks, off-road and on-road- this can be achieved with the OSRAM LEDriving Lightbar VX180-SP SR. With its 6 powerful, high-performance LEDs, the driving light has a range of up to 320 meters and thus offers the driver impressive foresight on-road and off-road. Even in dim light and reduced visibility due to external environmental influences, the driving light with up to 6000 Kelvin can provide conditions similar to daylight. The power package with up to 1400 lumens scores with highest optical efficiency and homogeneous light distribution. The driving light is characterised by its compact single-row design, ensuring a sleek appearance. In addition, the lightbar comes with standard brackets for various mounting options: hanging, standing and side. Versatile applicable, it defies numerous environmental influences and, thanks to highquality materials such as the aluminum housing and the stable polycarbonate lens, it is particularly light and at the same time robust and resistant. The driving light has been tested and validated with the IP-Protection Classes IP6K8 & IP6K9K in our DIN certified environmental simulation laboratory for extreme external influences regarding water, dust, impacts, heat, cold and permanent vibration. Whether on-road or off-road, the LEDriving Lightbar VX180-SP SR is an effective and efficient addition to your vehicle and can be
